

Proving you were at a 9/11 crash site or in the [VCF NYC Exposure Zone](#) is a requirement to be eligible for compensation. The VCF works with many employers, unions, and other entities to help claimants get the documents they need to prove where they were and when they were there. This chart summarizes the “proof of presence” documents you should submit based on your circumstances.

**If your entity appears on this list with a specific document listed, you should not submit your claim until you have the specific document.** It will speed the processing of your claim if you wait to submit it until you have the document. In addition, do **not** submit more than what is required based on your circumstances. Submitting additional documents that the VCF does not require will slow down the processing of your claim.

**Note:** The chart does not include all scenarios. Complete information about proving presence can be found in Section 1.6 of the [VCF Policies and Procedures](#).

**NOTE re: Certified/Verified Documents:** The VCF requires that unofficial school transcripts, school records, and union records be certified or verified when the records are not submitted directly to the VCF by the school or union. If an attorney is representing you for your VCF claim, we will accept a verification letter from the attorney attesting that the uploaded document is a true and unaltered copy of a document the attorney received directly from the school or union. These verification letters must include the following statements: (1) the document is a true, unaltered copy; and (2) the law office received the document directly from the school or union. The letter must be signed by an attorney – not a case manager, paralegal, or with a generic firm name – who is personally attesting that both of these statements are true. If the document was provided to the law firm by the claimant, the attorney should not verify the document, because it was not received directly from the source.
